Dear Abe:

In the short time that we have been working together to revitalize downtown Danbury significant progress has been made. The conference on historic preservation focused attention on our goal, and demonstrated Mayor Dyer's commitment to preservation as the fundamental tool for Main Street renewal, a commitment that he and Bob Steinberg have re-emphasized in subsequent private meetings. The Chamber of Commerce has played a strong role in organizational efforts. The fact that a sizable number of businessmen responded to the call for leadership and financial support for the Downtown Council is heartening.

At this time when the public-private sector partnership is being formed I think that it is appropriate for the Danbury Preservation Trust to reiterate its desire to be an integral part of the Council, and to contribute its expertise, energies, and funding sources to the success of the group. Dr. Truman Warner, a Trust Board member, and I would be the Trust's representatives on the Council's Board.

I also want to share with you a position paper that the Trust recently submitted to the Mayor and the Chamber. It outlines what we think is a constructive set of priorities for action by the Council. I hope that you and other Main Street businessmen can support it as the Council's work program for the next twelve months.

Sincerely yours,

Dr. Herbert Janick
President, DPT
