LAND VALUATION - A study and analysis of all available land sales and land rentals was made by this appraiser. It must be recognized that in view of the high density development of the immediate area that few sales of vacant land could be found. A study of surrounding areas uncovered land sales which after careful analysis and adjustment were found to be adequate guides to value. The page numbers refer to the comparable sales and rental data compiled by this appraiser and submitted herewith.

Page No.	Comment					
111	Larger parcel.					
114	Similar in size, better location.					
120	Less land, better location.					
126	Better location, less land.					
127	Better location, less land.					
192	Adjoining land, no improvements.					

The above sales indicate a range in square foot values of 57¢ to \$1.55. After careful consideration and adjustment of such items as size, location, physical characteristics and date of sale, the estimated square foot value of the subject land is considered to be \$1.35.

MARKET DATA APPROACH - Your appraiser has made a study and analysis of sales in the immediate area. The following sales are considered to be the best obtainable and have been adjusted in relation to the subject property for such items as location, size, condition, date of sale and amount of land. The page numbers refer to the comparable sales data compiled by this appraiser and submitted herewith.

	Com	ment		
Larger	building,	less	land.	
Larger	building,	less	land, poorer	location.
Better	location,	more	frontage.	
Better	location,	more	frontage.	
	Larger Better	Larger building, Larger building, Better location,	Larger building, less Better location, more	Larger building, less land. Larger building, less land, poorer Better location, more frontage. Better location, more frontage.

Estimate of Value by the Market Data Approach

\$36,500.00

The above estimate is based on the sales listed together with others in the area after adjustment for size, location, date of sale and condition.

Louis Katz Parcel No. 9-11

Final Estimate	of Value	837,600,00			
		Ministration of the Control of the C			
The greatest w	reight has been given to the Co	st Approach. The Market			
Data Approach is be	sed on sales requiring a great	deal of adjustment. The In-			
some Approach is ar	rived at after a study of the	factorial for fortactor			
the section of the property of the section of the s	and the second is seeing of the	AIRMAN PAMA BIRG COMMICIAL			
rental situation an	d its application in the form	of an estimated stabilized			
rental for the subj	ect property. The operating ex	penses appear to be in			
line with those of	similar properties in the area	. Vacancy and rent loss is			
a necessary conside	ration but is estimated to be	lower than average due to			
the type of building	g and its location. A building	of this type is usually			
purchased by a user	rather than an investor, hence	e the variation from the			
other approaches. H	owever, it is still within clo	se enough range to serve			
as a check.

	A COMPANY NOT THE REAL PROPERTY.				

AFFIDAVIT OF VALUATION

STATE OF CONNECTICUT
COUNTY OF Fairfield ss

Robert N. Noce of Danbury, Conn. being duly sworn, deposes and says that:

- 1. The facts and figures contained in this report are correct to the best of my knowledge and belief:
- 2. The fee for this appraisal and compilation of my report is in no sense contingent upon the value estimate reported:
- 3. I, the undersigned appraiser, have no present or contemplated future interest in the property herein appraised:
- 4. The opinions and conclusions herein expressed are mine, and in no way reflect those of another without due acknowledgement:
- 5. I have personally examined the within described premises on 4/20/60.
- 6. The within described premises, in my opinion, has a fair market value of \$37,600.00.

Robert M. Moce LS

Sworn and subscribed before me this
