

It's time to stop!

It's time to stop misusing the English language
"Non" before a word refers to the word immediately following,
not to selected words elsewhere. Thus non-additive medicine
means that the medicine is not additive, not that one is referring
to "non medicine". Non-Western culture, mean exactly what it
says -- non Western and not non culture

✓

It's time to stop ~~the~~ misrepresenting accepted
terminology. As any informed person knows, "race" and "culture"
are two entirely different concepts. Please stop mixing them up

It is time to stop making broad generalizations without supporting evidence. For example, it is time to provide the evidence for the statement that a "huge part of the population does not" consider the designation "non-western culture" reasonable.

It is time to stop ignoring history. Long before most of us were here a carefully thought out decision was made to ~~include~~ ^{intentionally} ~~offer~~ non-western cultural ~~studies~~ ^{es} in the curriculum to counteract the provinciality of ^{undergraduate} students being imposed only to "western" societies that had been the traditional fare of college & university curricula in the United States. Western Connecticut State University (~~under different titles through the years~~) ^{long} has been a leader in such offerings. ~~Only~~ ^{recently} has

~~It is time to stop ~~encouraging~~ the ~~student~~ of using such terms~~

~~insensitively~~

~~"insensitivity", "condescending", "stereotypes" "offensive"~~
~~"egocentric" "inquisitive" "intolerant" "superiority"~~
~~"racist" "dehumanize", "devalue", "irrelevant" for those~~
~~with whom you do not agree. ~~I long ago learned that~~~~
~~my understanding of others works in many directions~~
~~inter racial, inter cultural~~
~~at an ~~seminar~~ concerning prejudice a young black woman~~
~~~~took many of us~~ taught many of us a significant lesson when~~  
~~she made clear that while ~~the~~ concern about white~~  
~~attitudes toward blacks was admirable, her ~~actual~~ primary problem~~  
~~was with her mother who refused to let her bring white friends to~~  
~~her home.~~

~~It is time to stop recommending that social scientists~~  
~~who consider them "agreement logical & reasonable" (over this ~~justification~~)~~  
~~the arguments are "reasonable" ~~but~~ if not logical")~~  
~~assume an unreasonable and illogical stance in order to ~~justify~~ racism~~  
~~insensitivity, etc.~~
