Through Our Days	94
Sports	145
Commencement	173

Left: Memorial Hall also known as the Student Center is the center of student life on the WestConn campus. The building was built in 1959 and houses various club offices as well as student services. Among its contents are the cafeteria, information center, commuter snack bar, the bookstore and student lounges.

Right: Old Main is the original building at Western, which in 1903 was known as Danbury Normal School. At one time it housed the entire school from classrooms to administrative offices to the gymnasium. Now, the building has the administration offices along with the various student services, and the computer center.

Top Left: The Ruth Haas Library is a 23 year old building that houses over 150,000 volumes. Within the library there are special collections such as the musical items in the Ives Music Room, government documents, periodicals, and an extensive curriculum collection.

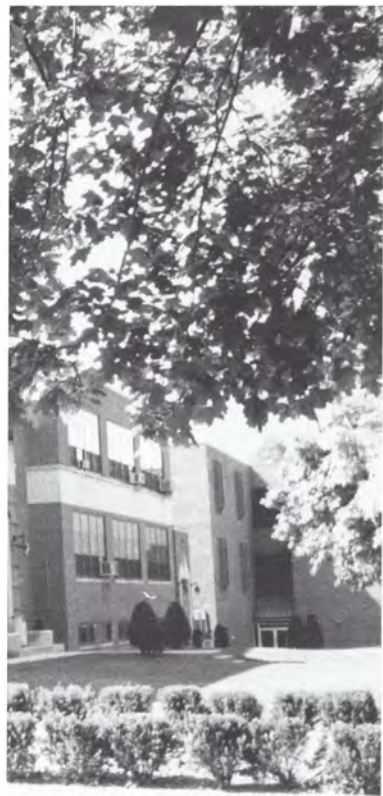

Left, Top Right: Berkshire Hall is a two-story building with a wide variety of uses. It contains the Bill Williams Gymnasium, the Roberts Avenue and studio theaters, the foreign language and writing labs, the weight room, as well as various athletic and academic offices.

Top and Left: Higgins Hall, built in 1959, is located in the center of the Midtown campus. It houses the planetarium, observatory, weather center, 24-hour computer lab, and a greenhouse. It also has the math, physics/astronomy, biology, chemistry, environmental, meteorology, and year-book offices.

Right: White Hall is located in what was once Danbury High School. The building houses the offices for the departments of social sciences, philosophy, art, music, nursing, social work, psychology and history. It also has practice rooms, an A/V room and the Ives Concert Hall.

Far Left: Litchfield Hall is the largest of the Midtown residence halls. It houses up to 245 students in both triple and double rooms. The 24 year old building houses both male and female students.

Middle: Fairfield Hall is the oldest residence hall at Western. The nearly 70 year old building is an all female hall and offers double and triple rooms.

Right: Newbury Hall is the newest of the Midtown residence halls at 20 years old. It is a coeducational facility and houses residents on its top four floors. On the main level, there is the Housing Office, the Counseling Center and the Campus Ministry Office.

Far Right: The Westside Classroom building houses the Ancell School of Business, as well as the departments of justice and law administration, accounting, finance, MIS, math/computer science, management and education. It also has the Robert S. Young Library, Westside Computer Center, President's Reception Room, and the Advanced Technology Classroom.

Right: Ella Grasso Hall is an apartment style residence hall which houses students in apartments of up to six students. Originally, the building was meant to house non-traditional students. Now any resident student may reside there through a lottery process.

Below: The William A. O'Neill Athletic and Convocation Center had its ground breaking ceremony in November of 1990 and is scheduled for opening sometime in early 1993. It will contain a gymnasium, a swimming pool, as well as many other facilities.

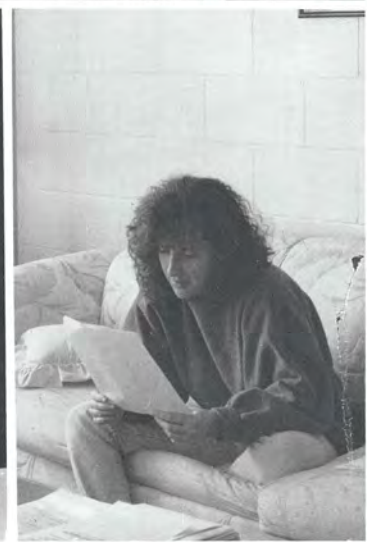

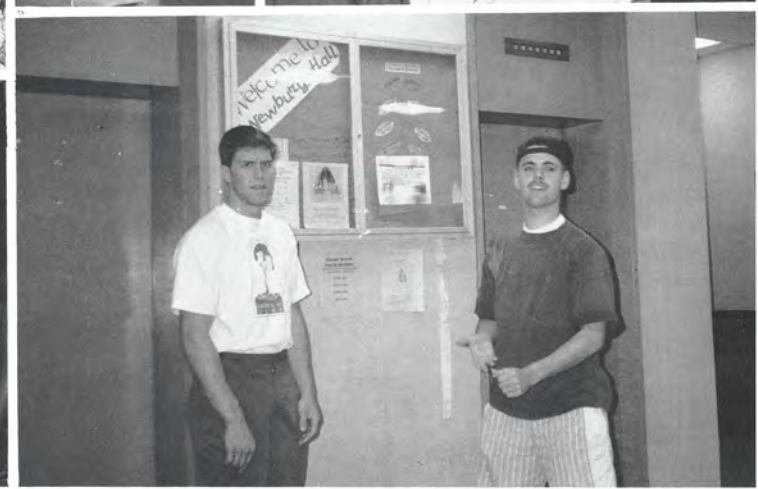

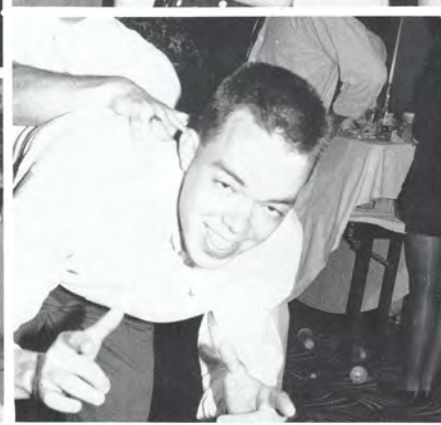

Top Left: The new University Health Services location outside of Litchfield Hall on the Middtown campus. The addition opened for service in the spring semester of 1992.

Around Page: Common sights around campus include, the "happy bus", "no parking" outside of Old Main, the crowded lot for commuters, and studying at the Westside.

Risking

To laugh is to risk appearing the fool
To weep is to risk appearing sentimental
To reach out for another is to risk involvement
To expose feelings is to risk exposing your true self
To play your ideas and dreams before the crowd is to
risk their loss
To love is to risk not being loved in return
To live is to risk dying
To hope is to risk despair
To try is to risk failure . . .

. . . but risk must be taken, because the greatest hazard
in life is to risk nothing. The person who risks nothing,
does nothing, has nothing, and is nothing. One may
avoid some suffering and sorrow but one simply
cannot learn, feel, change, grow, live, and love.
Chained by one's certitudes, one is a slave,
one has forfeited freedom. Only one who risks . . .
is truly FREE.

FAREWELL PRESIDENT

STEPHEN FELDMAN

For past eleven years, Stephen Feldman served as President of Western Connecticut State University. Awarded prestigious University status in 1983, Western has undergone significant changes during Dr. Feldman's tenure as president. Today, Western is an academically challenging, multi-purpose University serving 6,000 students and enriching the cultural life of the greater Danbury area.

Dr. Feldman successfully campaigned for state and private monies, bringing millions of dollars in gifts and grants to the University. Despite the increasingly conservative fiscal climate, over \$26 million in capital expenditures was allocated to campus projects and renovations. Equipment and computer budgets increased tenfold and the annual library budget has quadrupled. Additionally, projects such as the Ella Grasso Residence Hall and the O'Neill Athletic and Convocation Center on the Westside were developed.

Dr. Feldman directed his efforts to raising the standing of the University, resulting in higher admissions standards and the recruitment of outstanding faculty. The number of faculty members who hold Ph.D.'s and other terminal degrees has increased dramatically. New programs have been instituted, including the only Connecticut degree program in meteorology; the MBA program in the Ansell School of Business; a Master's degree in Nursing, and an expansion and redesign of the arts program.

During his presidency, Dr. Feldman co-authored his second book, wrote numerous articles and served on the Board of Directors for Danbury Health Systems, the holding company of Danbury Hospital. He also served on the Board of Directors of Ethan Allen Inc., the Board of Directors of the Danbury Chamber of Commerce, the Board of Directors of Science Horizons, and the Board of Trustees of the United Way.

Dr. Feldman was appointed by the American Association of State Colleges and Universities as national chairman of the committee on university-industry relationships. He has lectured at the Sloan School of Business at MIT, to IBM management groups, and before other corporate and civic groups. He is a recognized leader in the field of quality programming in higher education.

Dr. Feldman, his wife Connie, and their two children, Jennifer and Timothy, will be missed by the university community. We extend to them our best wishes as they embark on the next phase of their lives at Nova University in Fort Lauderdale, Florida.

WE WILL NOT FORGET

This year, Western Connecticut State University suffered the tragic loss of 6 of our friends. Each of the friends we lost was a special gift to us; each one was indeed special.

A sepia-toned photograph of a dense forest reflected in a calm body of water. The trees are lush and green, their forms mirrored in the still water below. The sky is pale and overcast.

HOMECOMING

OCTOBER 1991

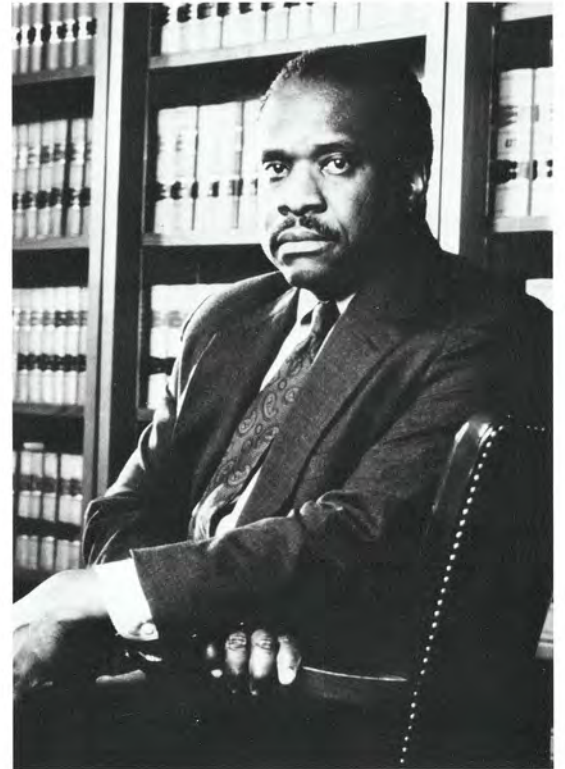

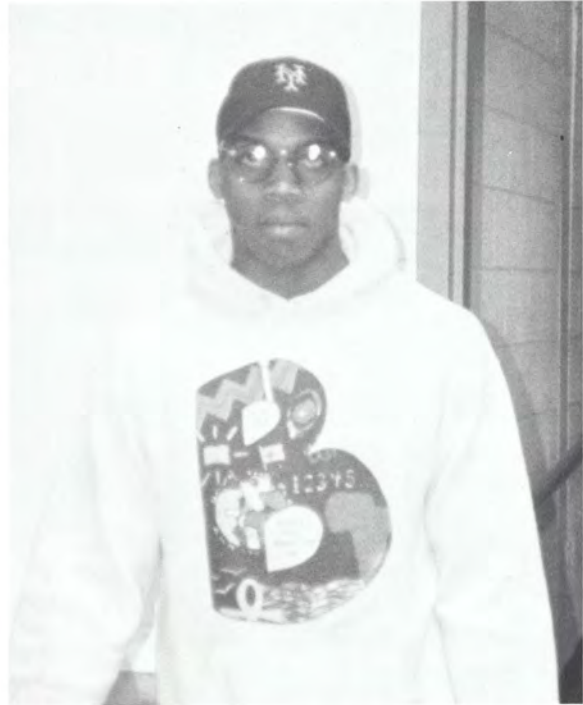

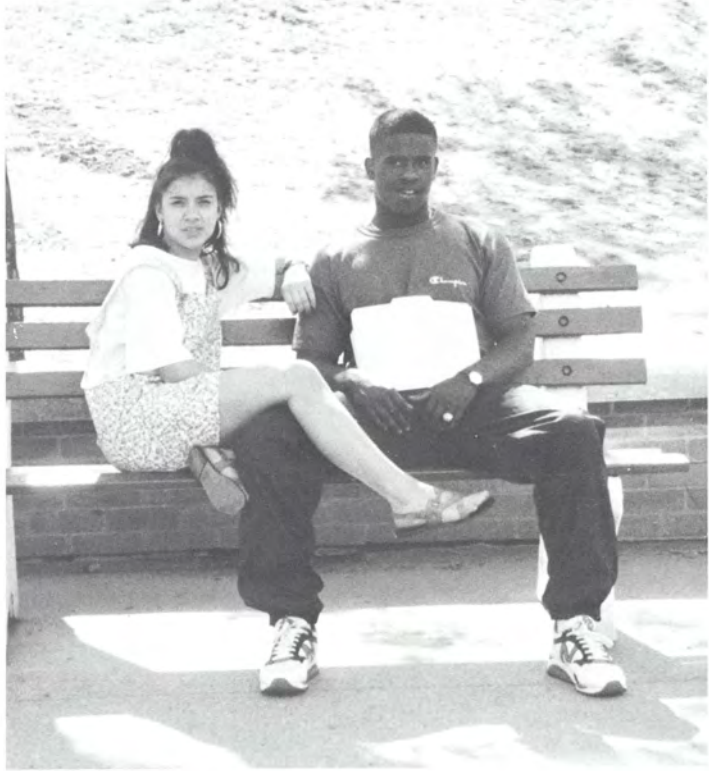

"*Magic Johnson*, the famed Los Angeles Lakers basketball star, announced he was infected with the HIV virus that causes AIDS. Johnson made his announcement to a stunned press conference in Los Angeles."

"President Bush nominated *Clarence Thomas*, a 43-year-old conservative Republican, to replace the retiring Justice *Thurgood Marshall* on the Supreme Court. Nearly three months later he was confirmed by the U.S. Senate by a vote of 52-48. After a series of public hearings, the Senate Judiciary Committee split 7-7 on his nomination. Just days before the full Senate was to vote, some serious allegations of sexual harassment were raised. *Professor Anita F. Hill*, a 35-year-old law professor from the University of Oklahoma and former assistant to Thomas at the E.E.O.C., claimed she was the victim of sexual harassment while the two worked together for about 10 years earlier. The Senate Committee reconvened and heard about three days of riveting testimony from Thomas and Hill and a group of supporters from both sides. The full Senate then debated the issue and voted to confirm the U.S. Appeals court judge to the nation's highest court."

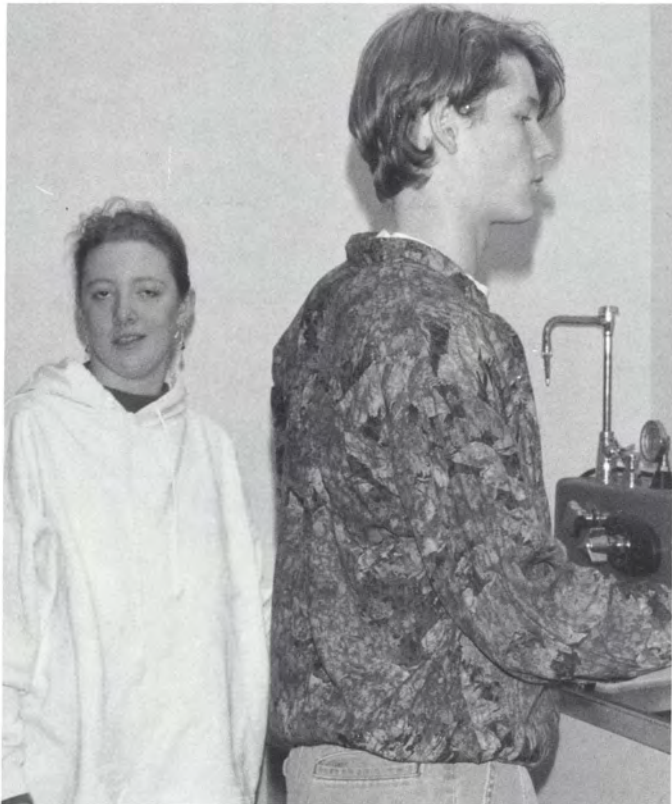

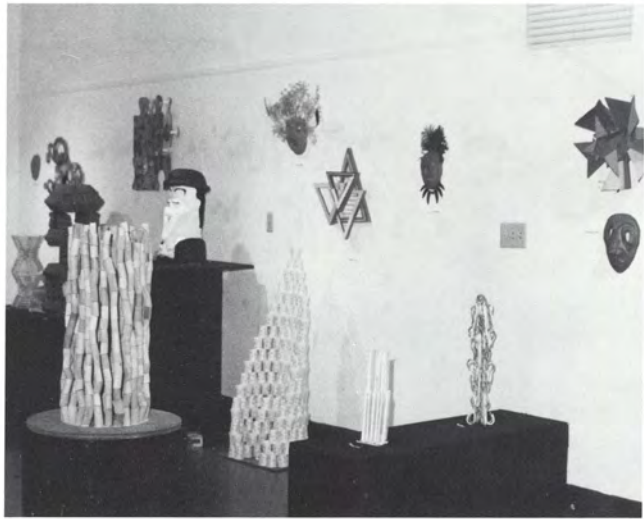

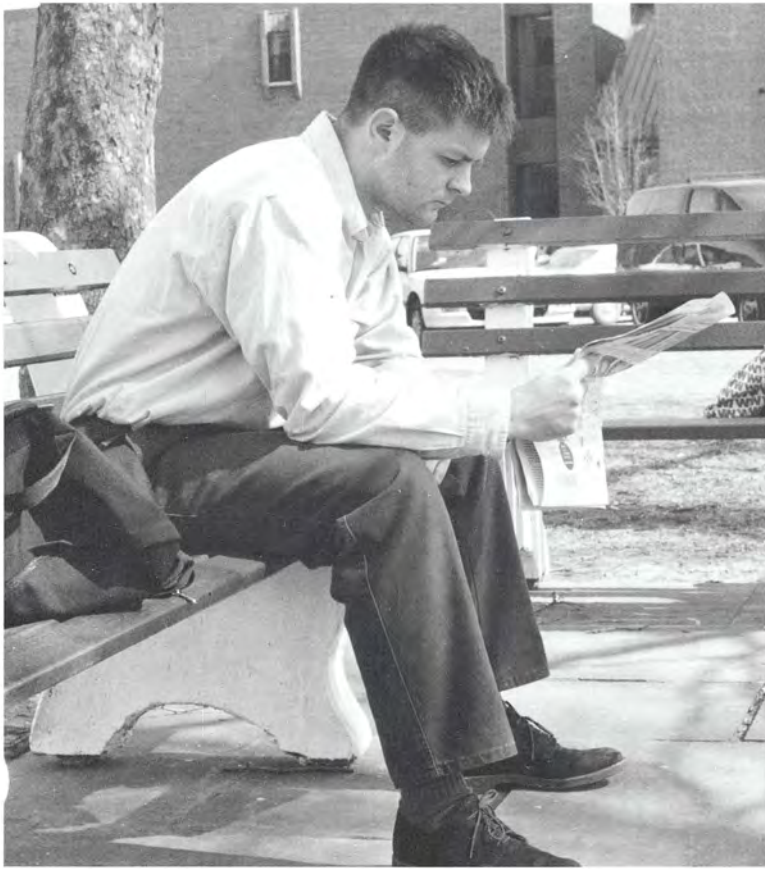

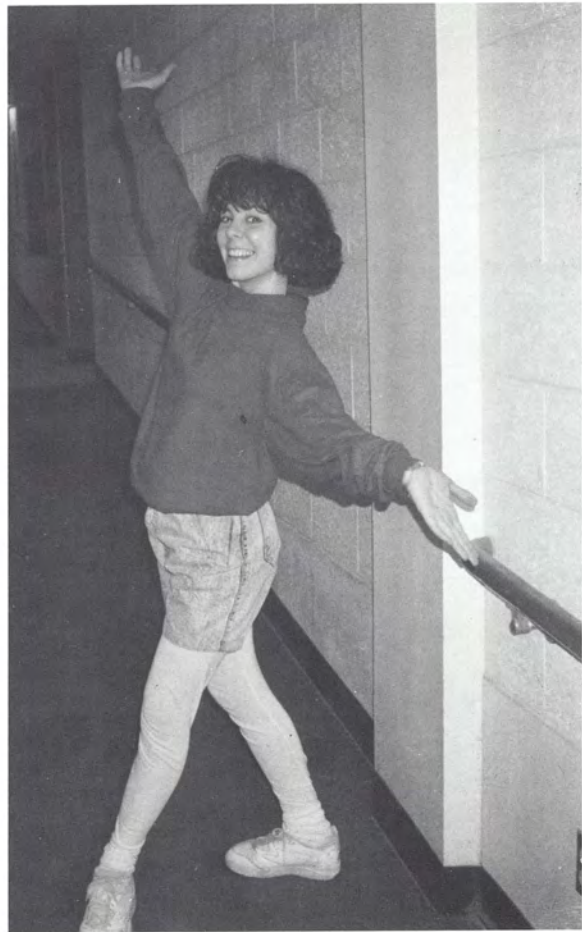

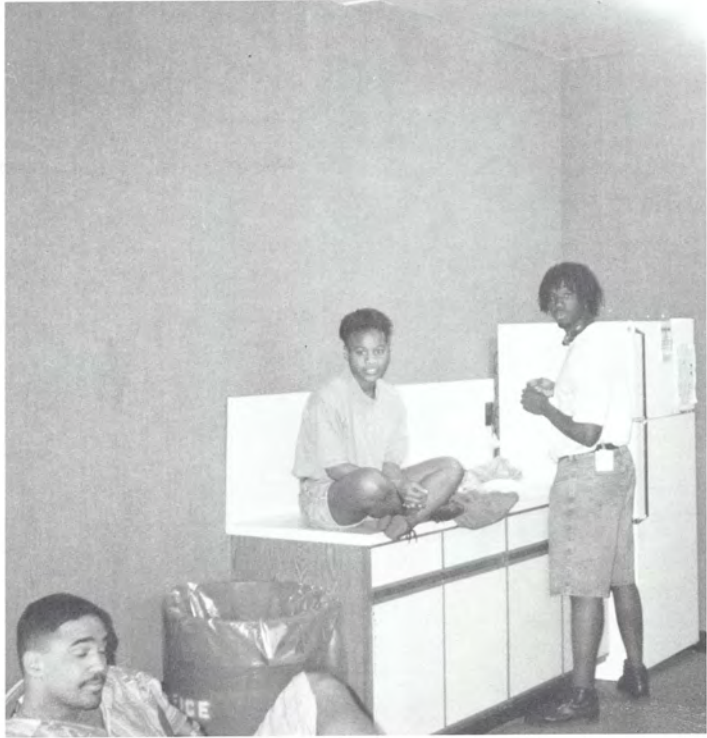

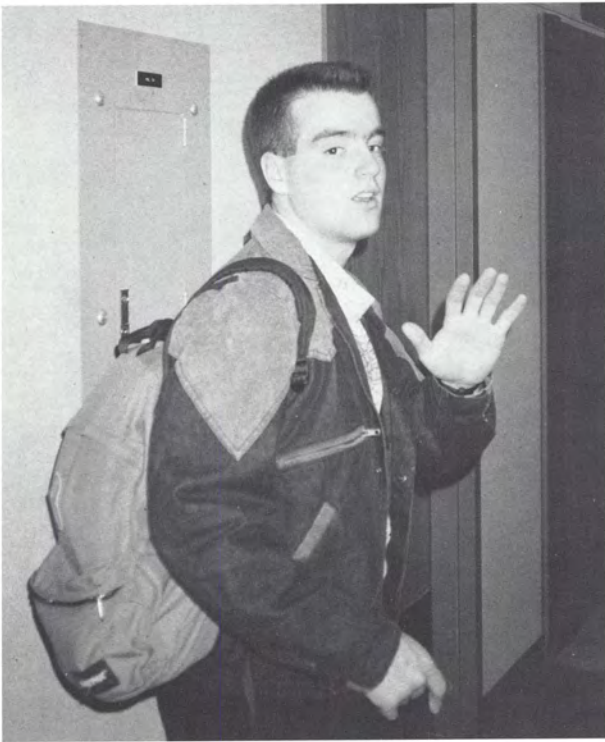

"The coup in the Soviet Union began on August 19, 1991. An eight-man committee led by Vice President Gennady Yanayev took power from *President Mikhail S. Gorbachev*. Yanayev said Gorbachev was ill. As *Russian President Boris Yeltsin* called on Russians to resist the coup, tanks and other military gear moved into Moscow. On Tuesday, August 20, 1991, President George Bush was joined with the European Community and demanded Gorbachev's return to power. And three of the leaders of the new eight-man ruling committee were said to step down. Finally, on Thursday, August 22, Gorbachev returned to Moscow before dawn and reassumed power."

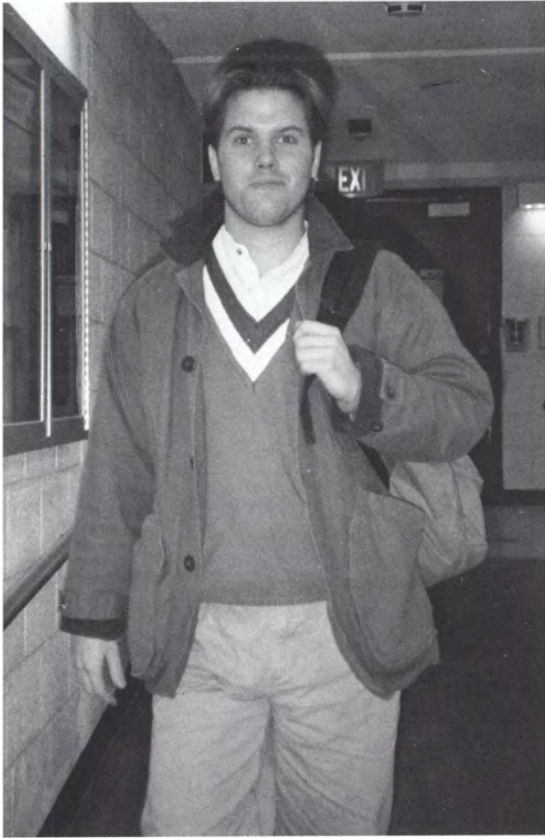

"Natalie Cole, the daughter of Nat "King" Cole, thought so much of her father's talent that in her latest album, "Unforgettable," she re-made 22 songs that her father made famous. *Guns N' Roses'* new album, "Use Your Illusion," hit the stores. It hit the top of the charts the first week out. *Vanilla Ice* wasted no time. His Debut album, "To the Extreme," hit the six million mark. "Extremely Live!" was another of his hit albums."

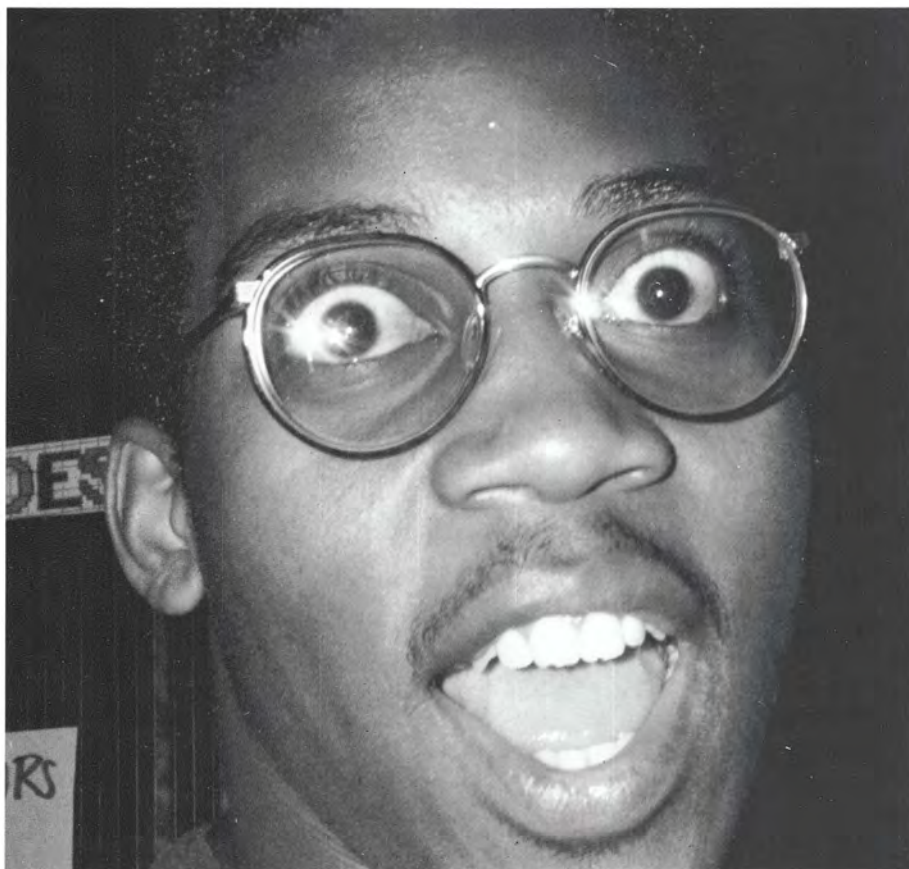

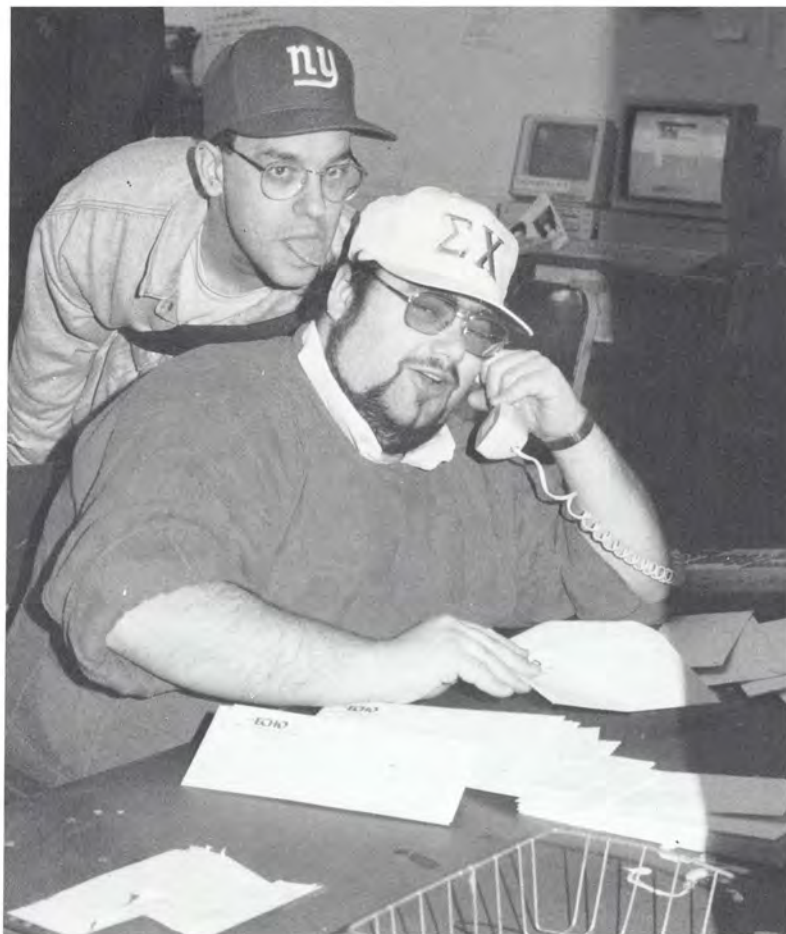

"Faced with widespread opposition to her proposal for a national referendum to approve a new 10-year American lease on the Subic Bay Naval Station in the *Philippines*, President Corazon C. Aquino accepted a compromise. It allowed for a three-year American withdrawal from the huge military base. Civil war broke out in *Yugoslavia*. The war unraveled this nation of six divergent republics, two of which, Croatia and Slovenia, declared independence from the federation in June, 1991."

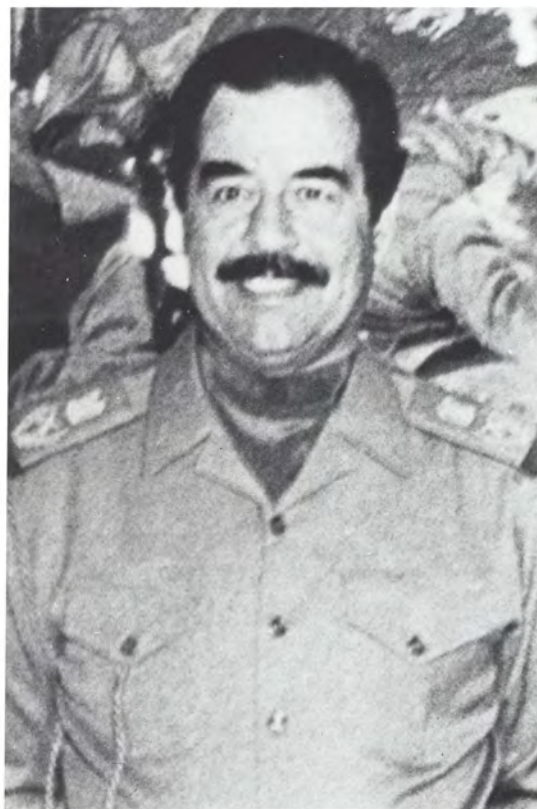

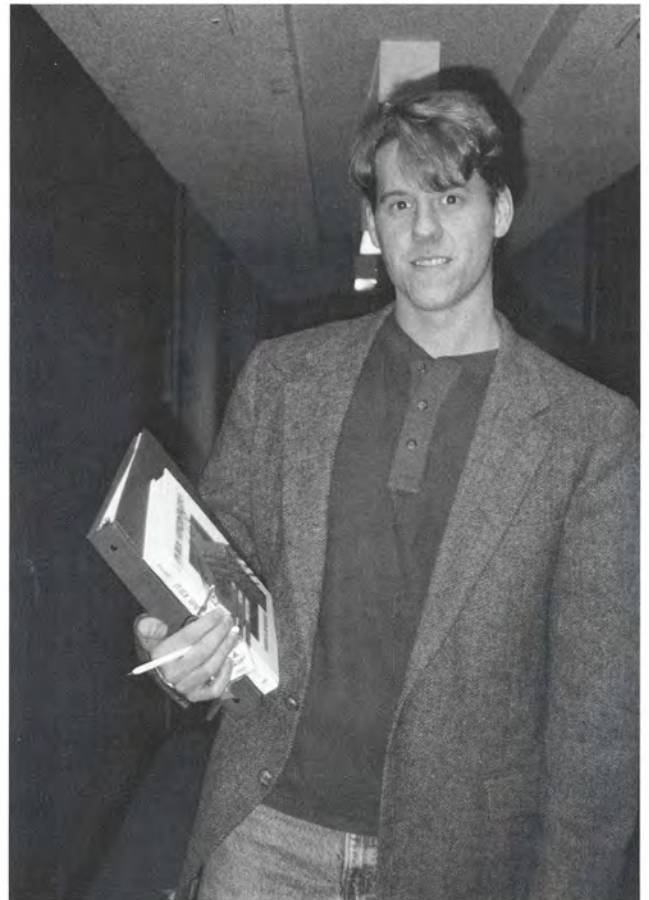

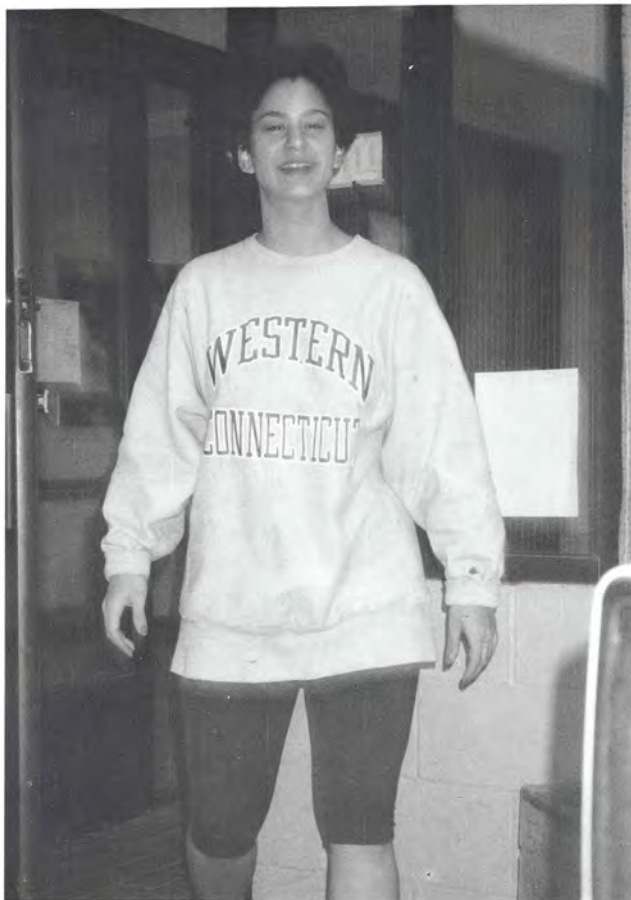

"*New York Stock Exchange* continued to hit new highs. Not long after school began in 1991, the market was closing over 3,000 on a regular basis. The United States was still in a recession, but the U.S. stock market continued to move to new heights. *Floods hit Texas* late in the year, causing extensive damage. Here, fire-fighters rescue a calf as the Colorado River overflows its banks near Wharton."

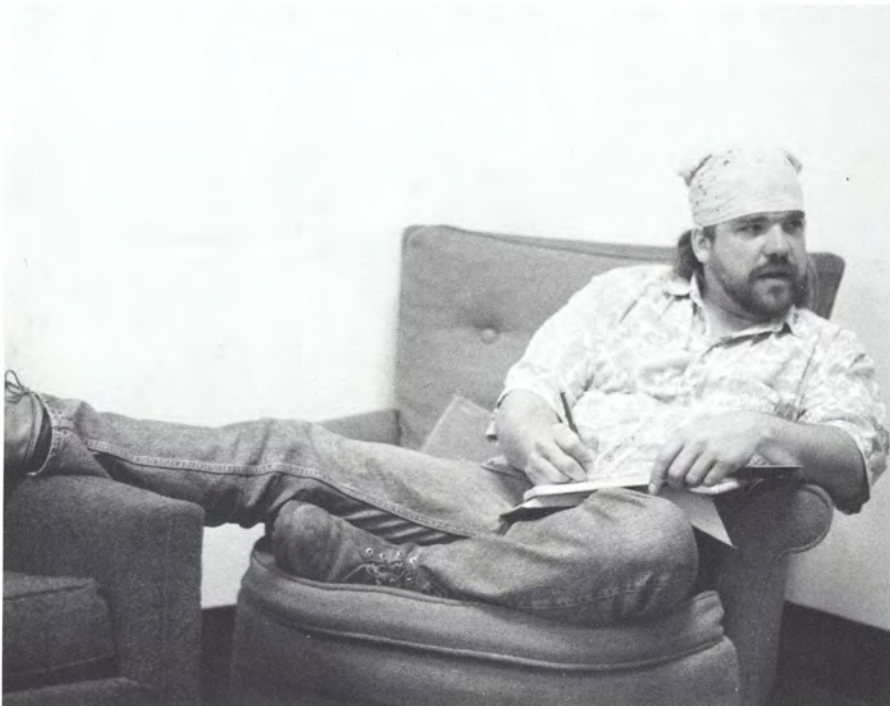

"Tens of thousands of Iraqis were killed by the United States and its allies after *Saddam Hussein* invaded Kuwait. Hussein's soldiers retreated from Kuwait, leaving the country in shambles, but the Iraqi leader remained in power. During the war in Iraq, Saddam Hussein's forces ignited hundreds of oil wells in *Kuwait*. The invasion of Iraq caused destruction estimated to be in the hundreds of millions of dollars. Months after the American military forces freed Kuwait City, the effects of war were still evident."

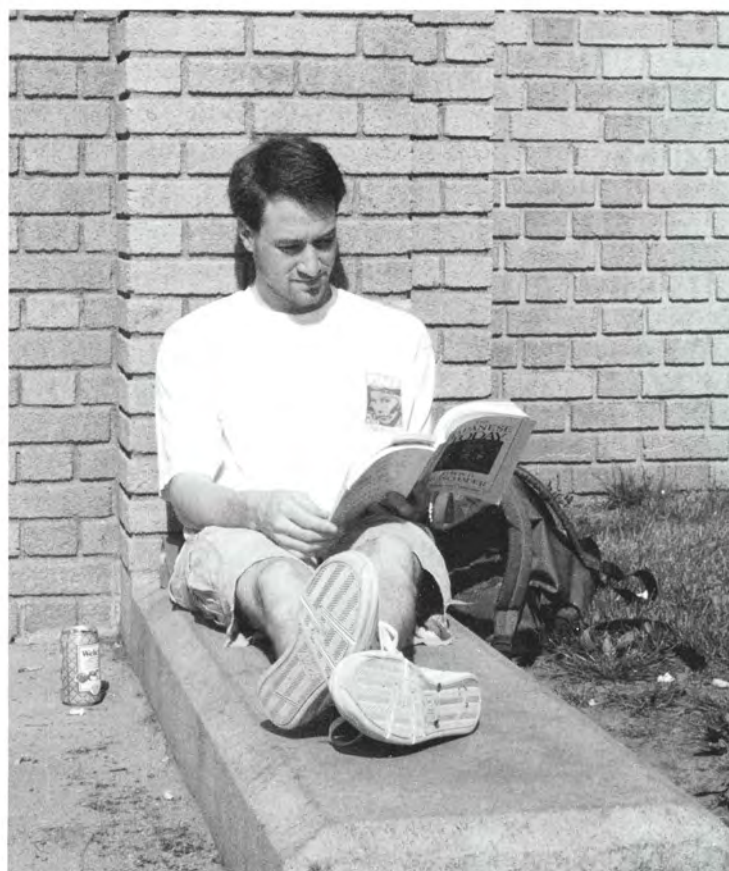

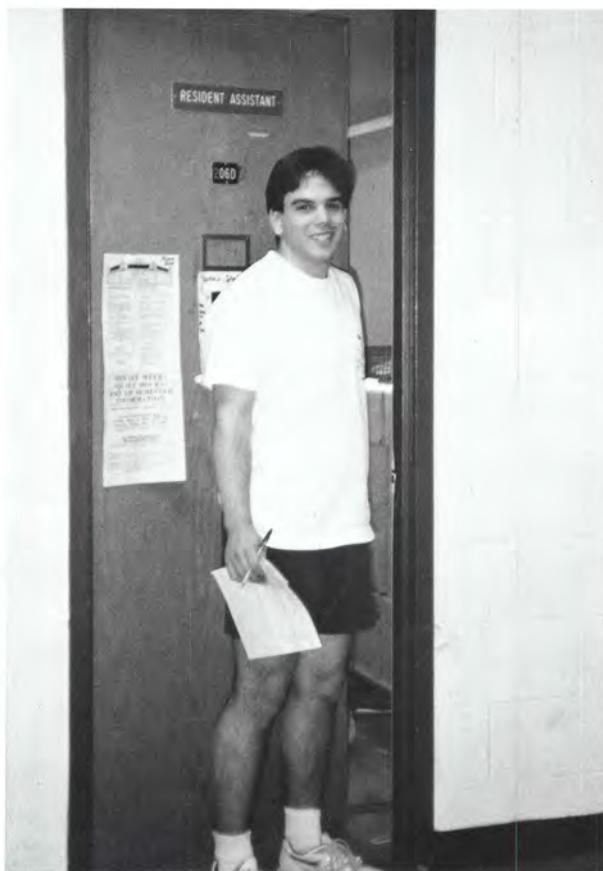

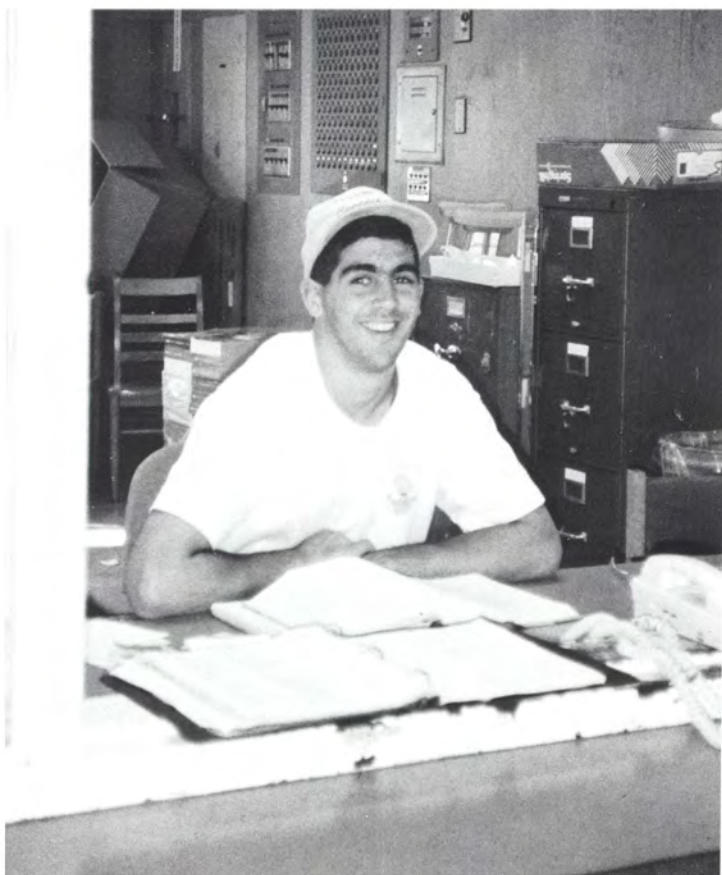

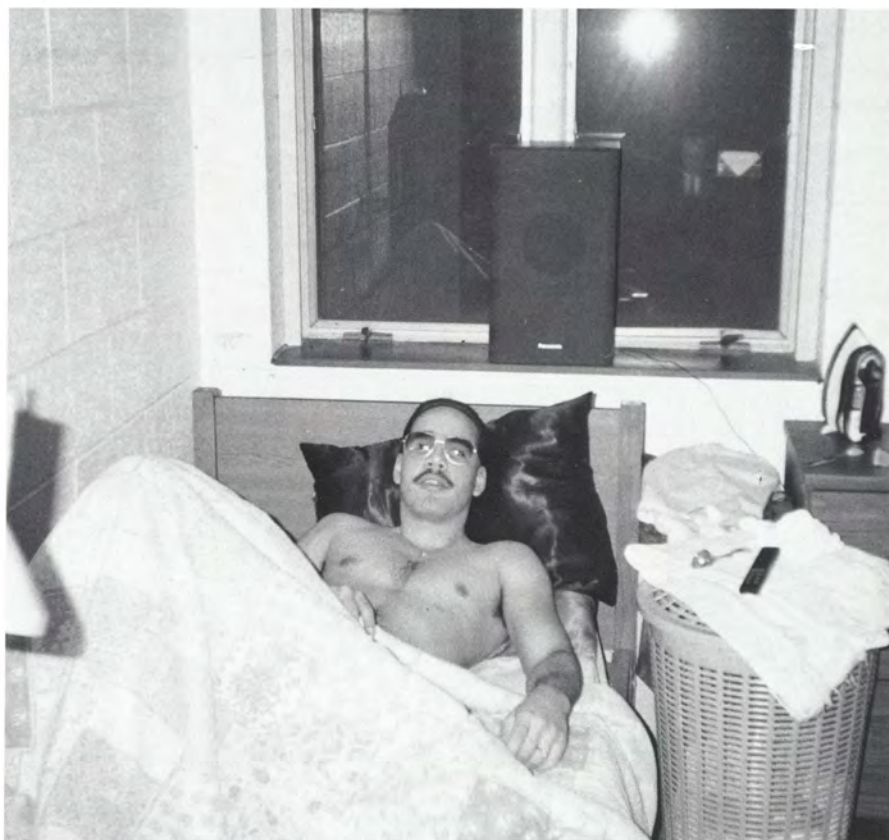

"In September 1991, President George Bush was trying to get his nominees to the Supreme Court (Clarence Thomas) and the Central Intelligence Agency (Robert Gates) successfully through the confirmation process. His two major tasks were peace in the Middle East and a lingering recession at home in the United States. Vice President Dan Quayle was criticized as a liability to the presidency. He survived the criticism and worked well with President Bush."

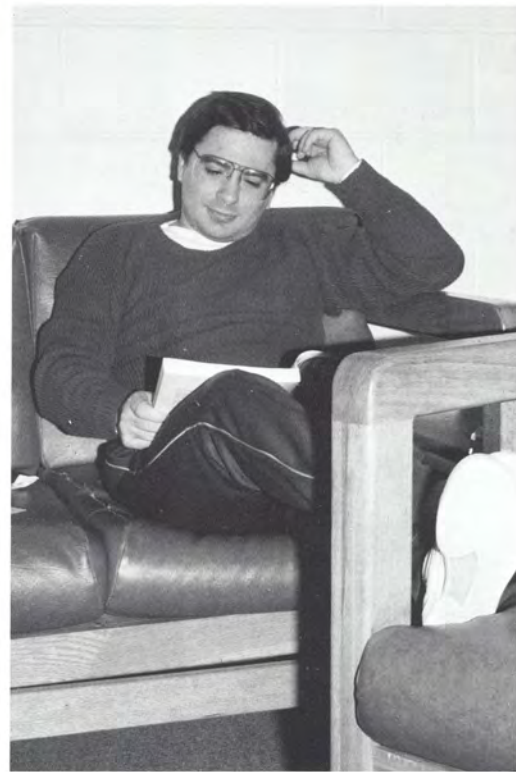

"The failure of the Soviet coup left *Fidel Castro* and his island nation somewhat isolated. After 32 years in power, Fidel Castro remained a towering figure in Cuba. Almost 60 percent of the Cuban population was born after he came to power in 1959."

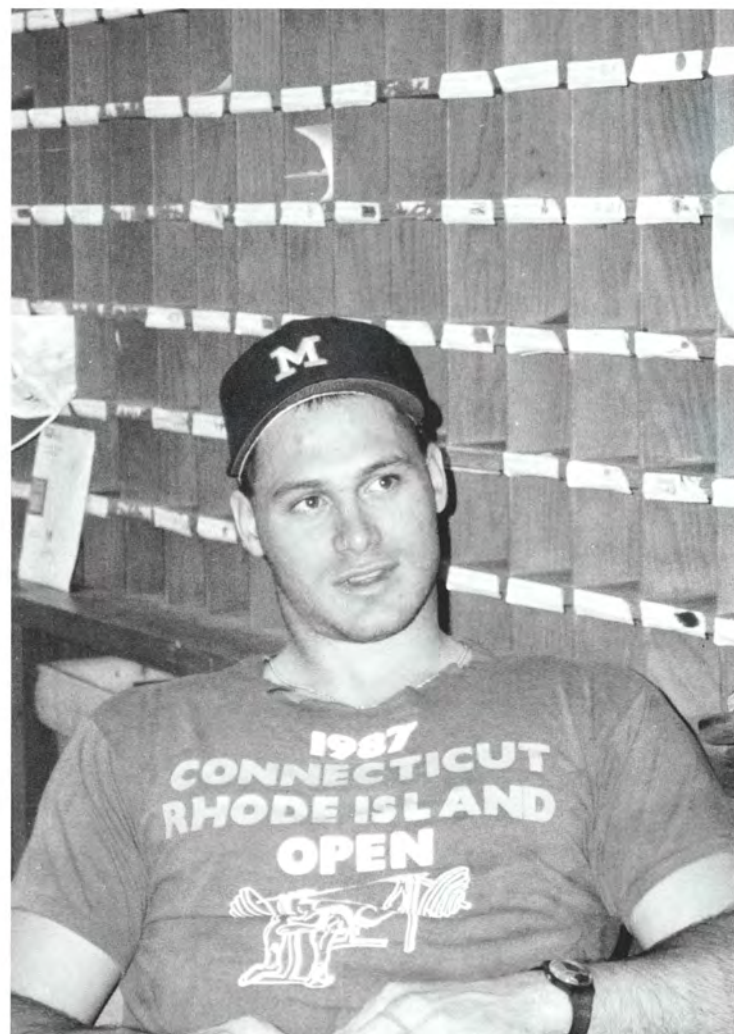

"Michael Jordan basketball star of the Chicago Bulls led his team to the NBA championship in 1991. Dan Marino, quarterback of the Miami Dolphins, is a very popular and very well paid football player. The 30-year-old superstar signed a \$25 million contract in the fall of 1991. Jack Morris of the Minnesota Twins walks off the mound after winning the final game of a seven-game World Series. The Twins beat the Atlanta Braves. Morris was named the MVP of the series."

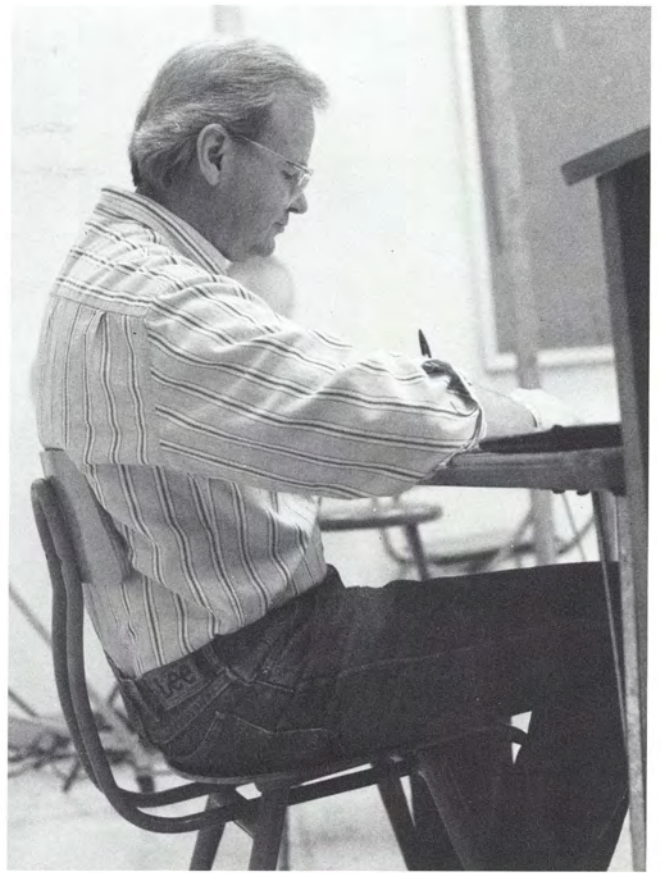

"Arnold Schwarzenegger, the body-building, action-adventure actor, was a big hit in the highly successful movie *Terminator 2: Judgment Day*. At a cost of more than \$90 million, it was the most expensive movie ever made. Schwarzenegger is shown in this picture in front of an image of his wife, Maria Shriver. After nearly seven years as a hostage, Terry Anderson was released on December 4, 1991. Anderson spent 2,455 days as a hostage in Lebanon. He was the longest held American hostage. He is shown here arriving in Wiesbaden, Germany, being greeted by his sister, Peggy Say."

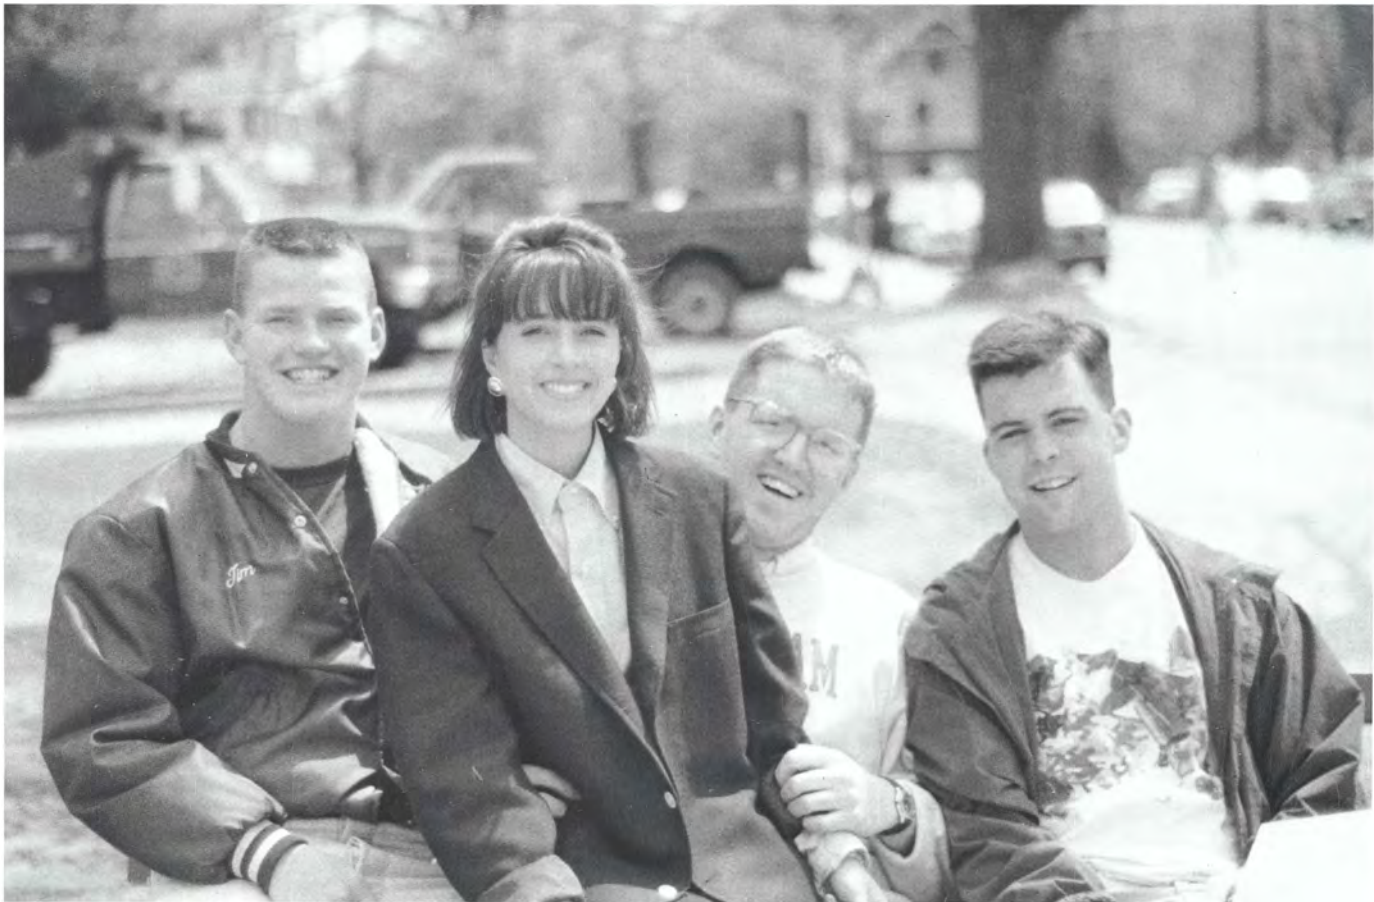

"His name is an acronym for Ladies Love Cool James, and *L. L. Cool J.* has the love of many fans. Chynna and Carnie and Carni's younger sister, Wendy, from *Wilson Phillips*, was one of the hottest trios of the year. He isn't a big man and he doesn't have a big voice, just a light, floating tenor. In an age of punk, heavy metal and robo-rock, *Paul Simon* sings harmonically and rhythmically rich melodies."

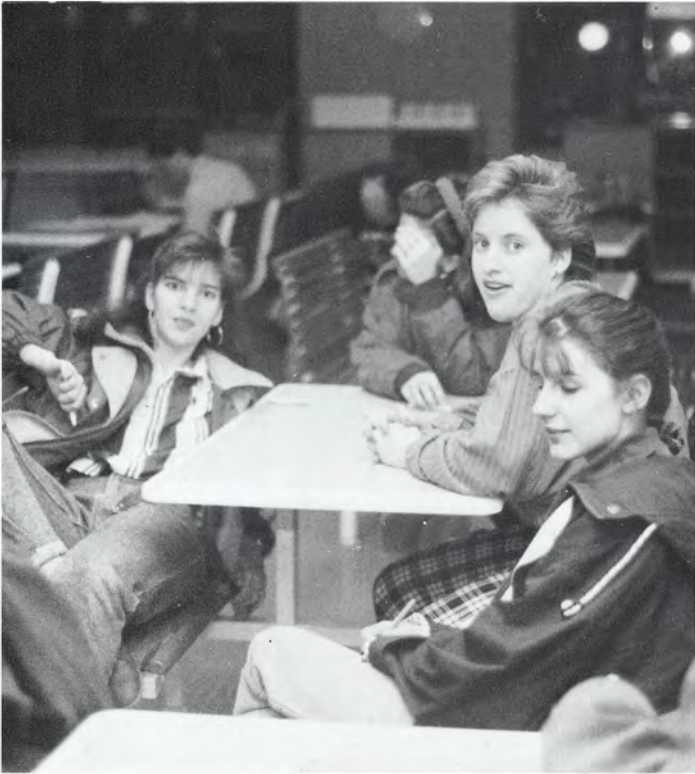

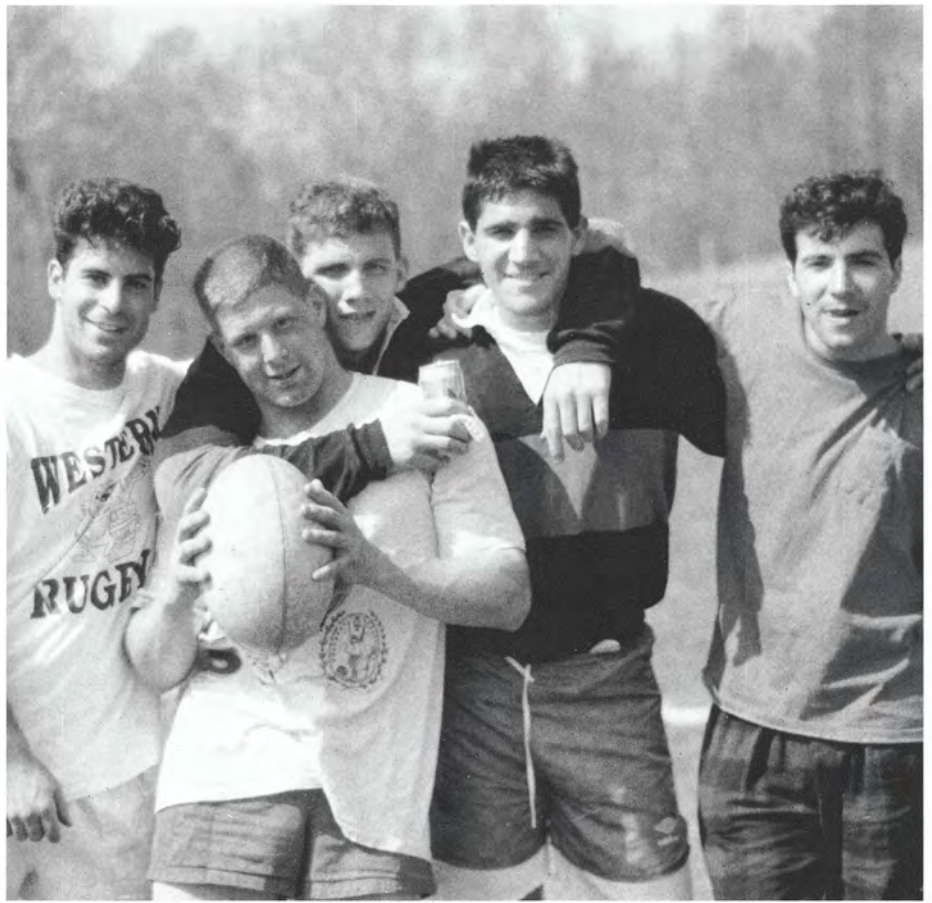

"Secretary of State *James A. Baker III* was President Bush's representative on dozens of diplomatic trips around the world but primarily to the Middle East. A peace conference in the Middle East was his primary mission. President Bush appointed *Alan Greenspan* to a second term as chairman of the Federal Reserve Board, endorsing the central bank's efforts to lift the economy from recession."

"Amy Grant has sold over 10 million records worldwide. She proudly displays five Grammys in her home. Paula Abdul has been all over the charts in recent years. Shown in this photo, the singer-choreographer performs at the MTV award extravaganza."

GRADUATION — 1992

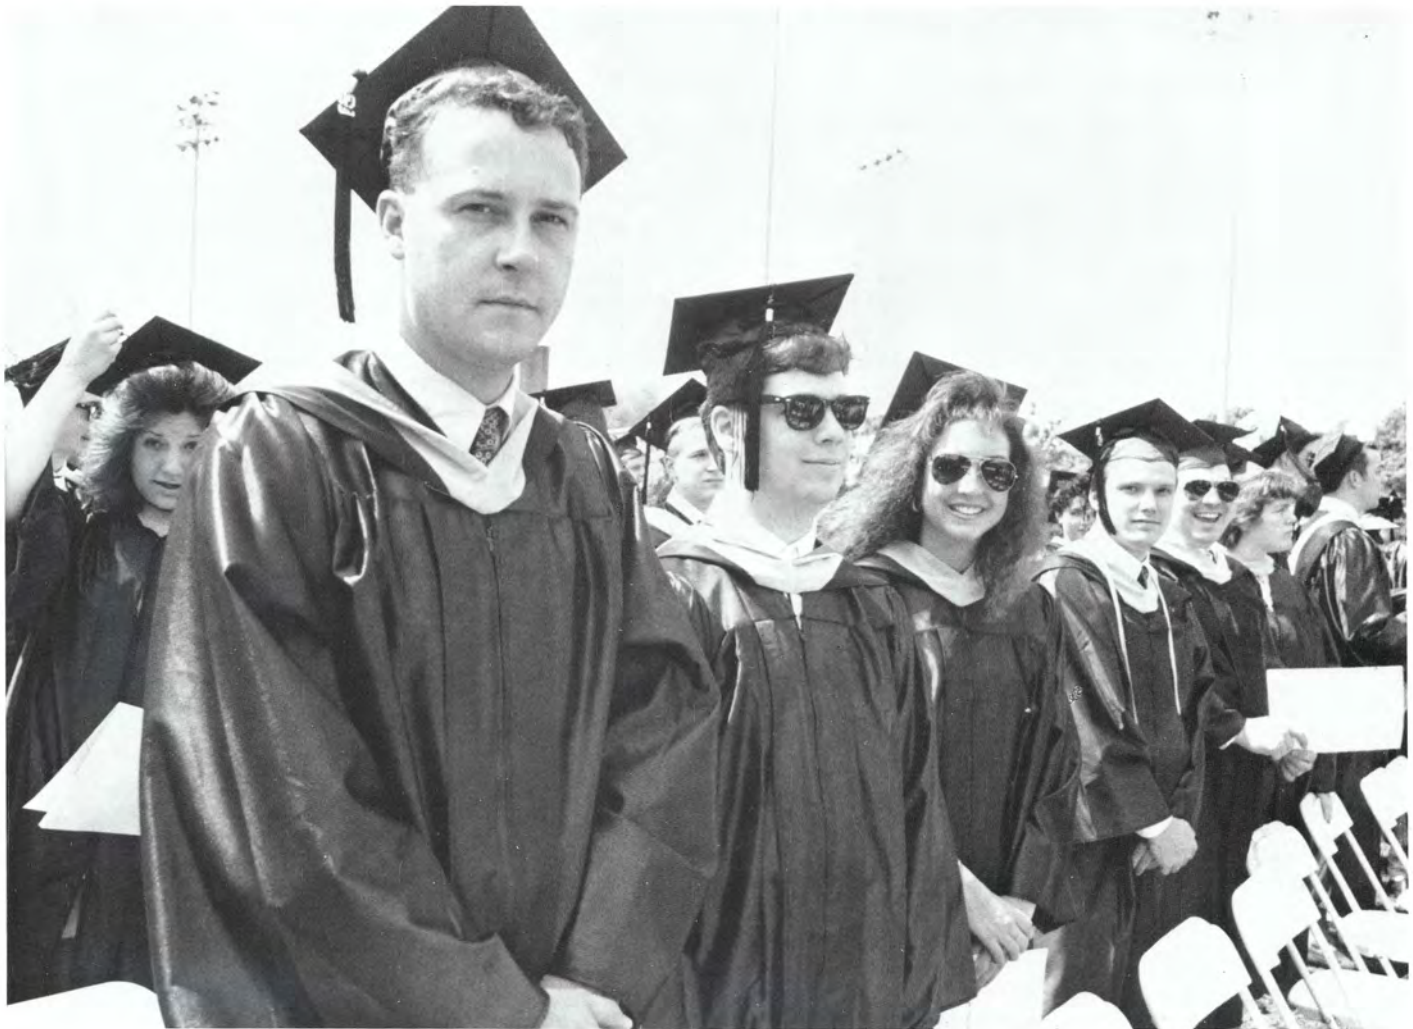

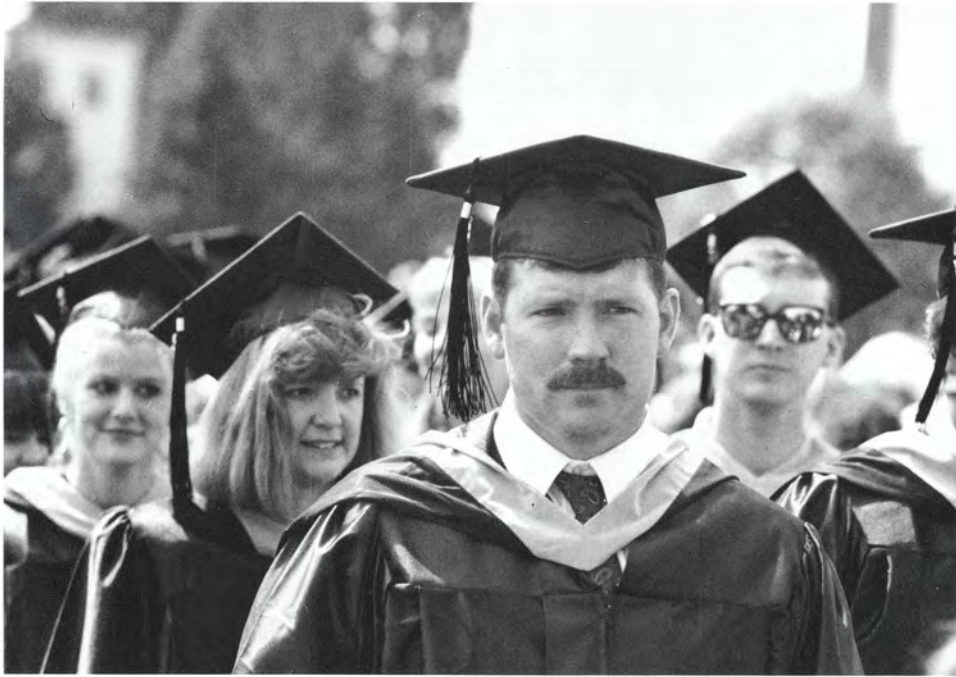

RECOGNITION PROGRAM

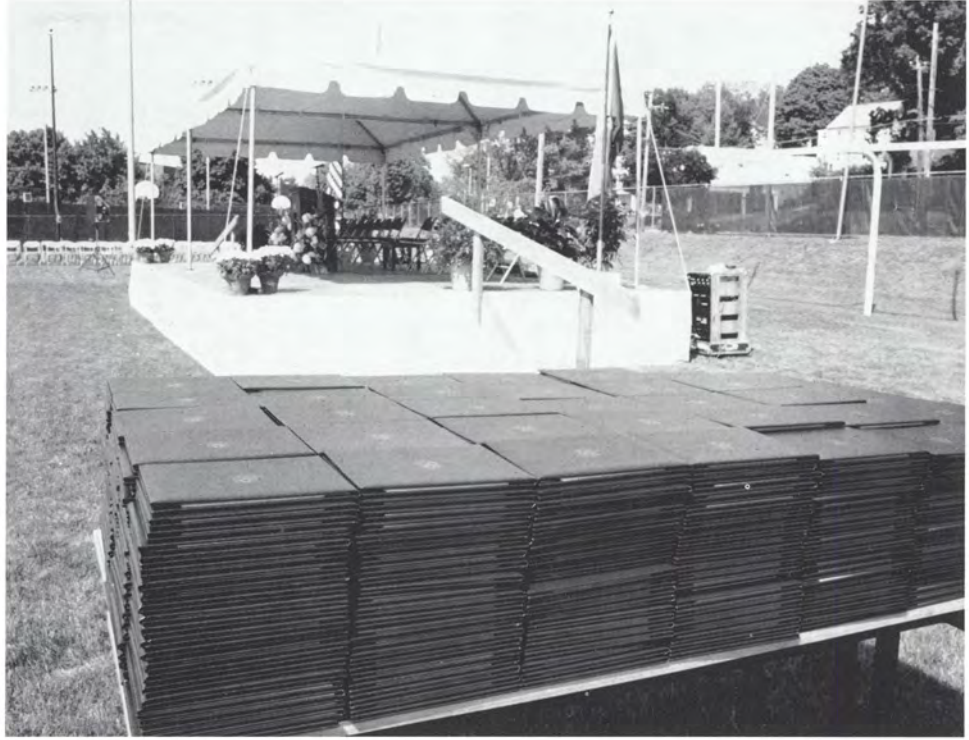

Graduation speaker Colonel Charles W. Scott and Dr. Stephen Feldman in commencement procession. This was Dr. Feldman's last graduation as President of Western before leaving to become President of Nova University, Fort Lauderdale, Florida.

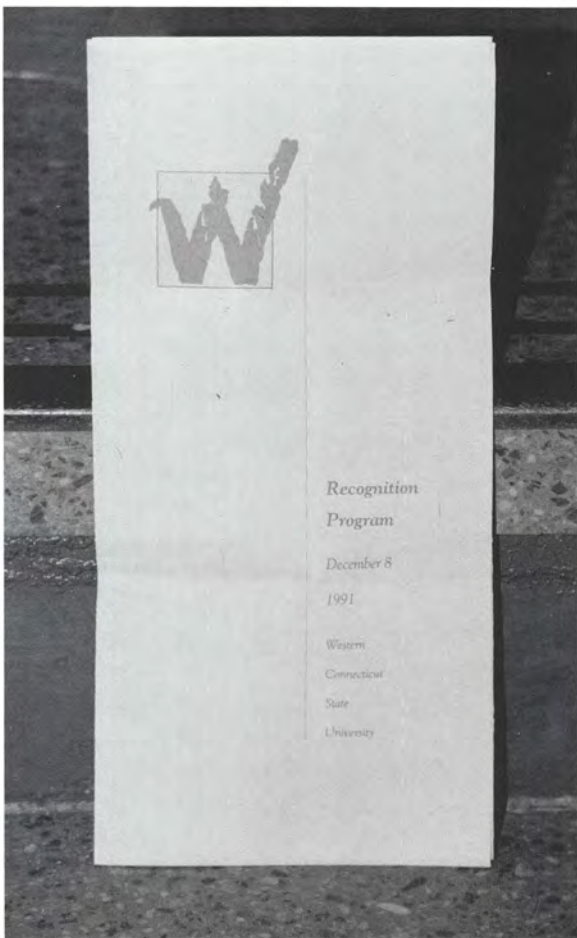

MAY 22, 1992

COMMENCEMENT EXERCISES

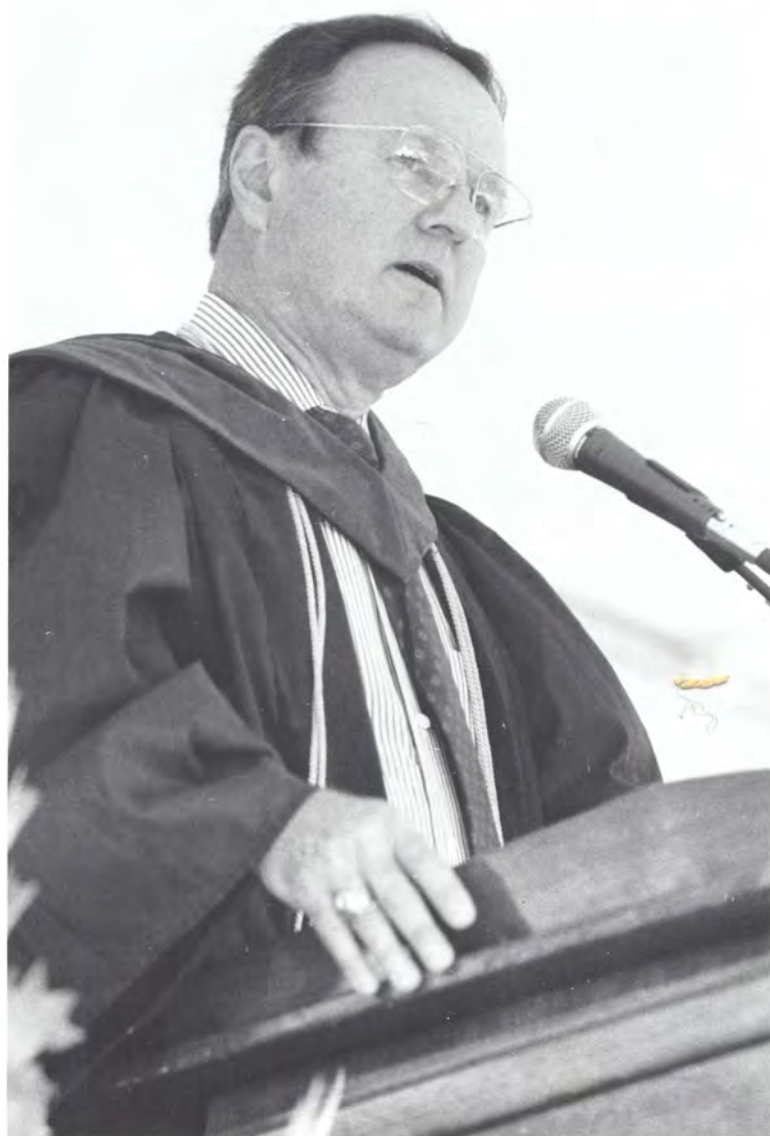

DECEMBER 8, 1991

Commencement speaker Colonel Chuck Scott (U.S. Army, Ret.) described how he survived life as a hostage for 444 days in Iran, and urged graduates to set realistic goals in their lives.

Oh, the Places You'll Go

Dr. Seuss

Congratulations! Today is your day. You're off to Great Places! You're off and away! You have brains in your head. You have feet in your shoes. You can steer yourself any direction you choose. You're on your own. And you know what you know. And YOU are the guy who'll decide where to go. You'll look up and down streets. Look 'em over with care. About some you will say, "I don't choose to go there." With your head full of brains and your shoes full of feet, you're too smart to go down any not-so-good street. And you may not find any you'll want to go down. In that case, of course, you'll head straight out of town. It's opener there in the wide open air. Out there things can happen and frequently do to people as brainy and footsy as you. And when things start to happen don't worry. Don't stew. Just go right along. You'll start happening too. OH! THE PLACES YOU'LL GO! You'll be on your way up! You'll be seeing great sights! You'll join the high fliers who soar to high heights. You won't lag behind, because you'll have the speed. You'll pass the whole gang and you'll soon take the lead. Wherever you fly, you'll be best of the best. Wherever you go, you will top all the rest. Except when you don't. Because sometimes, you won't. I'm sorry to say so but, sadly, it's true that Bang-ups and Hang-ups can happen to you. You can get all hung up in a prickly perch. And your gang will fly on. You'll be left in a Lurch. You'll come down from the Lurch with an unpleasant bump. And the chances are, then, that you'll be in a Slump. And when you're in a Slump, you're not in for much fun. Un-slumping yourself is not easily done. You will come to a place where the streets are not marked. Some windows are lighted. But mostly they're darked. A place you could sprain both your elbow and chin! Do you dare to stay out? Do you dare to go in? How much can you lose? How much can you win? And IF you go in, should you turn left or right . . . or right-and-three-quarters? Or, maybe, not quite? Or go around back and sneak in from behind? Simple it's not, I'm afraid you will find, for a mind-maker-upper to make up his mind. You can get so confused that you'll start in to race down long wiggled roads at a break-necking pace and grind on for miles across weirdish wild space, headed, I fear, toward a most useless place The Waiting Place . . . for people just waiting. Waiting for a train to go or bus to come, or a plane to go or the mail to come, or the rain to go or the

phone to ring, or the snow to snow or waiting around for a Yes or No or waiting for their hair to grow. Everyone is just waiting. Waiting for the fish to bite or waiting for the wind to fly a kite or waiting around for Friday night or waiting, perhaps, for their Uncle Jake or a pot to boil, or a Better Break or a string of pearls, or a pair of pants or a wig with curls, or Another Chance. Everyone is just waiting. NO! That's not for you! Somehow you'll escape all that waiting and staying. You'll find the bright places where Boom Bands are playing. With banner flip-flapping, once more you'll ride high! Ready for anything under the sky. Ready because you're that kind of a guy! Oh, the places you'll go! There is fun to be done! There are points to be scored. There are games to be won. And the magical things you can do with that ball will make you the winning-est winner of all. Fame! You'll be famous as famous can be, with the whole wide world watching you win on T.V. Except when they don't. Because, sometimes, they won't. I'm afraid that some times you'll play lonely games too. Games you can't win 'cause you'll play against you. All Alone! Whether you like it or not, Alone will be something you'll be quite a lot. And when you're alone, there's a very good chance you'll meet things that scare you right out of your pants. There are some, down the road between hither and yon, that can scare you so much you won't want to go on. But on you will go though the weather be foul. On you will go though your enemies prowl. On you will go though the Hakken-Kraks howl. Onward up many a frightening creek, though your arms may get sore and your sneakers may leak. On and on you will hike. And I know you'll hike far and face up to your problems whatever they are. You'll get mixed up, of course, as you already know. You'll get mixed up with many strange birds as you go. So be sure when you step. Step with care and great tact and remember that Life's a Great Balancing Act. Just never forget to be dexterous and deft. And never mix up your right foot with your left. And will you succeed? YES! You will, indeed! (98 and $\frac{3}{4}$ percent guaranteed.) Kid, you'll move mountains! So . . . be your name Buxbaum or Bixby or Bray or Mordecai Ali Van Allen O'Shea, you're off to Great Places! Today is your day! Your mountain is waiting. So . . . get on your way!
