

ELEVEN NEW VOTERS.

Registration of Town Shows 8,573 on Lists.

Yesterday the selectmen and town clerk, sitting at the board of elections to make new voters, admitted eleven new voters, whose rights were secured between October 1 and today. Of this number seven were women and four were men. Of the women registered in the first district and the seventh in the second district. Of the new men voters one is in the first district, two in the second district and one in the third district. The corrected and revised figures of the total registration of the town, obtained by the registrars and including the new voters made yesterday show that there are 8,573 on the lists. Of this number 5,205 men and 3,368 are women. The voters, according to the four districts, are registered as follows:

	Women	Men	Total
1st district	1014	1394	2408
2nd district	792	1236	2028
3rd district	826	1513	2339
4th district	734	1092	1826
Totals	3368	5205	8573

believed that he is now well on road to complete recovery.

Philip N. Sunderland has been elected as chairman for the meetings of the Boosters Luncheon club for month of November by C. Stuart Dean, who was chairman last month. The meeting of the Boosters tomorrow will be the first at which Mr. Sunderland will preside.

John J. O'Hara, secretary of the Farmers' association, stated that what he had been asked several times concerning the situation in the town of the Seaman Hard Rubber Bridgeport, and that he had first told those who asked that it was no strike at the plant. At that time, he stated, he had not positively that there is a strike at the plant and that he is making this announcement for the benefit of those interested.

The current issue of the Literary Digest appears a picture of a scene in New York city, at the foot of an article upon an immigration topic. Conspicuous in the picture is the bow of a large tugboat which appears the name "T.C. Ford," familiar to all Danbury. The boat is one of the ocean tugs owned by the New York or Towboat Co. in which case C. Millard, president of the Danbury National bank, is interested, was named for Mr. Millard.

Women Will Not Have to Pay Personal Tax.

The question whether or not women will have to pay a personal tax has been asked frequently since women became voters. The opinion here is that they will not and in this connection a formal legal opinion just given by the corporation counsel of the city of Waterbury is interesting.

The Waterbury American last evening said: Women will not have to pay a personal tax, even though they have been admitted to full rights as electors, according to an informal opinion given by Corporation Counsel U. G. Church. The state law with regard to the personal tax states specifically that all "male" residents between 18 and 60 years of age are subject to the tax. Nothing is said concerning the female citizens, and unless the laws are changed they will not be required to pay the annual two-dollar tax.

Town Clerk Robert Palmer and Personal Tax Collector Joseph H. Reid hold similar views on the matter and both fail to see any connection between women voting and being subject to the personal tax. Several women have inquired of the American if they would have to pay the tax.

The personal tax is really nothing more than the old poll tax or military tax. All male residents between 18 and 60 years regardless of whether they are voters, or even citizens, are required to pay the tax. Foreigners coming to this country are subject to the tax as soon as they arrive; even before they take out their first papers. The voting list is something distinctly apart from the personal tax list and all city officials agree that any attempt to connect the two is erroneous.

There is no doubt but that a number of women failed to become voters last year because they failed to pay the two-dollar-a-year personal tax. They were misinformed on the subject and will not have to pay such a tax unless the Legislature sees fit to change the laws in that regard.

"Anyway, it is worth two dollars to cast your vote and have a part in the government," said one woman this morning.

It has been pointed out that in case women are included in the personal tax by a revision of the state laws, all women of certain ages, regardless of whether or not they are voters, citizens or foreigners, will be subject to the same charge.

Using Lansden Truck.
New York Hardware Firm Finds it Admirable.

Hull, Griggen & Co., dealers in builders' hardware and contractors' supplies, 308 to 316 Third avenue, New York city, have recently placed in commission as a unit of their city delivery service, a Lansden electric truck, manufactured in this city, and have found it so successful and so well adapted to the purposes for which it is being used, that at least two more will probably be purchased in the near future.

LARGE MEETING OF CLUB

Monday Club Discusses Literature, Art and Drama.

An unusually large meeting of the Monday Club was held yesterday at the home of Miss Martina Griffing, 123 Deer Hill Avenue, almost every member of the club being present. The program, selected by Miss Griffing, and arranged by Mrs. Hartwell, consisted of articles on Current Literature, Art and Drama. Under the first department, interesting reviews were given of recent biographies of David Lloyd George, Disraeli, "The Prisoner of War," and Walt Whitman. Other books reviewed were "Caliban," by W. L. George, and "Fiddler's Luck," by Robert Haven Shauffeur. The hour on current prose closed with an exhaustive resume of the seasons books in all departments.

Under the drama, articles were read on "The Theatre Guild of New York," David Mink's new play, "The Treasure," "The Far Horizon," and its author, Eugene O'Neill, and the views of Sir Gilbert Parker on film productions. This part of the program was brought to a close with a sketch by Richard Hoffman of Jenny Lind's first appearance in America.

Under art, articles were read on "The Recent Work of Solon Borglum," "St. Gaudens' Statue of Lincoln in Front of Westminster Abbey," and the return of the Spanish painter, Sorolla, to American shores. The program closed with a review of recent poetry and the reading of two poems entitled, "The Lost Key," and "From the Port of Play."

At the conclusion of the program, tea was served, from a table beautifully decorated with roses, and an abundance of fall flowers, cosmos, callulula, chrysanthemums and dahlias, everywhere in evidence. Coffee was poured by Mrs. W. R. Porter, and the hostess was assisted in serving by Mrs. Theodore H. Benedict and Miss Alice B. White. Guests present were: Mrs. F. K. Watson, Mrs. Charles Rider, of Danbury, and Mrs. Elizabeth Booth, of Richmond Hill. Residents of the afternoon were Mrs. D. C. Brown, Mrs. C. D. Ryder, Miss S. Ellis, Hull, Miss Ella V. Hull and Miss Lucy S. Wildman.

TO RECEIVE RETURNS.

Results of Election to Be Received in Numerous Places.

Several local lodges have made arrangements for receiving the election returns this evening and it is expected that large numbers of members will be on hand. Special telegraph instruments have been installed in the Elks' Home, Masonic Temple, Knights of Columbus Home and the Danbury Club. Social sessions will be held by each of these societies and musical programs have been arranged and refreshments will be served.

The Masonic orders will hold "open house" for members and their families, a custom which has been followed for several years.

The returns will also be announced

"Diamond Dyes"
Take No Other

Don't Spoil or Streak Material in a Poor Dye

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods.

What is Nuxated I
Physician Explains — Says Public Ought to Know
They Are Taking — Practical Advice on
How to Build Up Your Strength, Power and Intelligence and Increase the Red Blood Corpuscles

The fact that Nuxated Iron is today being used by over four million people annually and that so many physicians are prescribing it as a tonic, strength and blood builder in weak, nervous, rundown conditions has led to an investigation of its merits by designated physicians and others whose reports should be of great importance to the public generally. Among them is the statement made by Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and Westchester County Hospital, who says: "When one patient after another began asking my opinion of Nuxated Iron, I resolved to go thoroughly into the subject and find out for myself whether or not it possessed the real value claimed by its manufacturers and attested to by so many prominent people. This is exactly what I believe every honest, conscientious physician should do before prescribing or lending his endorsement to any product whatsoever. If an article is worthless as practitioners ought to be the first to know of it and if it is efficacious we are in duty bound to recommend it for the welfare of our patients. A study of the composition of the Nuxated Iron formula so impressed me with the therapeutic efficacy of the product that I immediately tested it in a number of chronic cases. So quickly did it increase the strength, energy and endurance of the patients to whom it was administered that I became firmly convinced of its remarkable value as a tonic and blood-builder. I have since taken it myself with excellent results. It is a tonic who need not such a tonic do not know what to do. I have recently suggested the inclusion of the sworn statement of its formulae so that the public may be able to judge for themselves. This is a rare opportunity for the country. It is composed of iron in the form of iron pyrophosphate and which is one of the most easily absorbed. To the credit of the manufacturer, it is a form of iron pyrophosphate, which other makes they could not obtain. It is a quantity of actual iron in 1 gram and fourth the dose and iron they could have reduced to one-twelfth, but by the product they would understate its therapeutic effect. A careful examination of the formulae of the physician or pharmacist who told me that Nuxated Iron is the very highest class and most preparations known to medicine anything I have ever seen the system and increasing it purities thereby enriching it blood against the ravages of
